## PROFILE

---

I'm a dedicated UX/UI designer capable of creating traditional and new revolutionary solutions that are helping clients achieve their goals and grow their brands. I love to create clean, smart, and effective designs. And I do believe that design is the key point in the environment we live in, regardless if it's the real or digital world.

## EXPERIENCE

---

### 2017 - Pres. UX/UI Designer • DevelopmentAid

My task is to improve the connections between actors working for international development sectors by redesigning the old version of the main site according to the UX principles and latest UI trends. Additionally I'm in charge of designing the site's new features and sections.

### 2016 - 2017 UX/UI Designer • Darwin

Redesigned the old version of the largest gadget retailer in Moldova to help manage the increasing numbers of the online sales and successfully achieve the main goals.

### 2015 - 2016 UX/UI Designer • SEO Force

Created websites and landing pages. The main profile of the company was providing SEO services and site designs, which gave me the opportunity to explore and learn SEO content.

### 2014 - 2016 Co-Founder, Author • Gaspix

Co-founded a warehouse that stocked inspiration for designers among articles about the latest web design trends, tips, hot tops, useful tutorials and freebies. And maintained the blog, while also collected information and wrote the articles.

### 2014 - 2015 UX/UI Designer • Petcial

Built and designed a website and iOS mobile app for Petcial a startup social network for pet lovers.

## EDUCATION

---

### 2008 - 2012 Bachelor's degree in Engineering

Technical University Of Moldova • Chisinau, Moldova
